

ABOUT US

MISSION

To be a gateway to global information supporting the teaching, learning and research needs of the university community thereby enhancing its regional and global reach.

VISION

The Library will play a vital role as the hub of The University of the West Indies by continuing to use innovative techniques to:

- Support students, faculty, and researchers
- Provide access to scholarly resources
- Empower staff
- Preserve and highlight unique special collections
- Reposition and create spaces conducive to the intellectual and physical well-being of our clientele

CORE VALUES

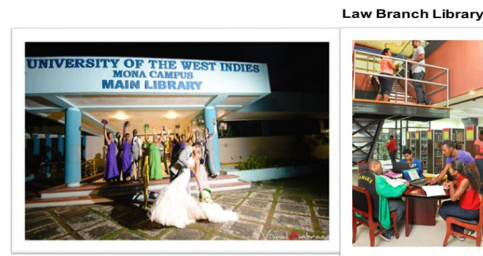

- Excellent service
- Learning
- Collaboration
- Innovation
- Respect
- Communication

OUR HISTORY

The Science Branch Library (SBL), (formerly, *The Natural Science Library*) is one of five libraries comprising The UWI, Mona Library system. The SBL was built through funding from the Canadian government and was officially opened on December 7, 1973, in the Faculty of Science & Technology, then designated, Faculty of Natural Sciences.

With technical and financial support from the Mona School of Engineering (MSE), the SBL was renovated in 2016. An official ceremony was held on May 17, 2017 to mark the notable improvements and the re-branding of the SBL as the Science & Engineering Branch Library (SEBL), to give focus to Engineering.

SEBL VIRTUAL TOUR

Popular Science & Engineering Specific Databases

- IEEE
- Scifinder Scholar
- Web of Science
- Science Direct
- Agricola
- ACM
