

## INTRODUCTION

In pursuit of its goal to improve efficiency and accountability, the Mona Campus in academic year 2005–06, continued to advance the transformational agenda, begun under the former principal Professor, the Honourable Kenneth O. Hall, in 2005 with the establishment of the Strategic Transformation Team (STT).

Without exception, the Faculties and administrative divisions set targets consistent with this mission and the STT continued, as in the previous year, to initiate, administer and monitor catalytic transformational activity. Also in concert with its mission and acknowledging that appropriate infrastructure is critical to achieving quality output, the Campus, within its limited financial resources, invested in improving and enlarging its physical and technological infrastructure.

Thus, it added to buildings, made improvements to the teaching and administrative facilities, invested in a comprehensive roof repair programme and implemented a number of technology applications to enhance operational efficiency.

PROFESSOR ELSA LEO-RHYNIE, CD  
Pro Vice Chancellor & Principal

A man in a red graduation gown is leaning over a podium, signing a document. The podium is covered with a blue cloth and has a microphone and a floral arrangement on it. The background is dark with a red curtain.
