STATISTICAL DIGEST 2010/11 TO 2014/15

A STATISTICAL REVIEW OF 5 YEAR TRENDS IN STUDENT ENROLMENT AND GRADUATION
STATISTICS AT THE UWI DURING THE PERIOD 2010/11 TO 2014/15 FOR SELECTED DATASETS

Prepared by: University Office of Planning and Development
April 2016

for: Annual Business Meeting of the University Council
29th April 2016, Trinidad

OVERVIEW

The statistical information presented in this report provides quantitative measures as well as graphic snapshots of student participation and graduate output within The University system during the academic years 2010/11 to 2014/15. The report gives information in tabular form mainly on the following:

- (a) ENROLMENT PROFILE – 5 YEAR TREND – 2010/11 TO 2014/15
- (b) STUDENT DEMOGRAPHICS – 5 YEAR TREND – 2010/11 TO 2014/15
- (c) OUTPUT OF GRADUATES -5 YEAR TREND – 2011 TO 2015
- (d) SNAPSHOT STATISTICS FOR 2014/15
- (e) TIME SERIES ENROLMENT AND GRADUATION STATISTICS – HISTORY IN NUMBERS FROM INCEPTION TO PRESENT

The statistics are presented for The University as a whole as well as for each Campus and Faculty. In the case of registration data, a distinction is made in the tables between students who receive their education on a Campus and those who receive their instruction at off-campus sites in the various contributing territories. Such information facilitates an appreciation of the wider impact of the University on the development of human resources in the region.

The statistical information contained in this document has been collated and presented by The University Office of Planning and Development which is located at St Augustine. The data, however, were obtained from various sources. Data for the Mona Campus was provided by the Office of Planning and Institutional Research; for St Augustine, by the Campus Office of Planning and Institutional Research and for Cave Hill, by the Office of Planning and Projects and for the Open Campus by the Computer and Technical Services (CATS).

IMPORTANT NOTE: Student Statistics are usually snapshot and datasets may differ depending on the time of the academic year the data was extracted from the system and reported on. The data reported on in this document is normally taken after the academic year has been completed i.e. after July 31st of the particular academic year and may differ in some instances from similar datasets done during earlier or later periods of the same academic year.

DEFINITIONS OF CONCEPTS USED IN THE STATISTICS PRESENTED

In order to facilitate a greater understanding and interpretation of the statistical tables, explanations of the key terms and concepts have been provided in the report. These terms are listed below.

REGISTRATION:

Refers to the process by which students, upon acceptance into the University, give written notification of the courses they wish to pursue during the semester of enrolment, pay the requisite fees, and obtain academic approval from the Faculty. The summation of each individual student registration constitutes the input data for deriving statistics on Campus and University Student Registrations. The registration data are represented by country of origin of student, by faculty and by programme level, as detailed in the tables.

PROGRAMME:

Refers to the course of study for which the student has been admitted into The University. This pertains to: First Degrees; Certificates; Diplomas; Higher Diplomas; and Higher Degrees.

ENROLMENT:

Registered students who are in attendance at The University in any given academic year.

NEW ADMISSIONS:

This refers to registered students who are new entrants to The University. It should be noted that Mona treats students who have transferred from the Faculty of Pure and Applied Sciences to the Faculty of Medical Sciences, as newly admitted students. Students who have transferred to the Faculty of Law from the Faculties of Humanities and Education and Social Sciences, are also treated as new admissions.

CATEGORIES OF STUDENTS:

On-Campus: Students who directly access classes on a campus in pursuit of degree, certificate and diploma programmes.

Off-Campus: Students who pursue all their university courses through distance education/online or through educational institutions which are not formally a part of The University of the West Indies, such as tertiary level institutions and affiliated institutions. Most of the students in this category are now enrolled with the recently established Open Campus.

Full-time: Registered students who carry the full load of courses associated with their university programme for the academic year.

Part-Time: Registered students who carry less than the full load of courses associated with their university programme for the academic year.

Specially Admitted: Students who are admitted into The University under special circumstances, such as an exchange agreement with another institution or to attend selected courses in which they are examined.

Exchange: Students who are regarded as a special category of external students by which there is reciprocity between The University and the Institution with which such an arrangement is made.

CONTRIBUTING STUDENTS:

Member countries of the English speaking Caribbean that contribute to the finances of The University.

NON-CONTRIBUTING STUDENTS:

Non-member countries that do not contribute to The University's finances.
