## ABOUT US

The Faculty of Social Sciences developed the Weekend Programmes as a special initiative that delivers degree programmes wholly on Saturdays.

The objective of the FSS Weekend School is to offer degree programmes and short courses for professional job enhancement.

The FSS Weekend School is an attractive option for persons who find it difficult to obtain “time off” to attend classes during the week due to work and other social responsibilities, as well as other persons who simply prefer the convenience of studying on the weekend.

## THE WEEKEND PROGRAMME ADVANTAGE

- Small class ratio
- Classes held on a Saturday
- eLearning mixed with in-person
- Learn with similar professionals

We are very conscious of the needs of our adult learners.
